

Dhanvanatri Medicinal Plants Garden

Government Ayurved College, Nanded.

The Government Ayurved College and Government Ayurved and Unani Pharmacy, Government Ayurved Hospital and the Drug Testing Laboratory located at Vazirabad, Nanded are the four units of a single Government institution which comes under the Directorate of AYUSH, State of Maharashtra, Mumbai.

The Dhanvanatri Herbal Garden situated in our college campus has been developed for the demonstration to the students as well as it provides a good source of raw material for the Panchakarma procedures which are routinely carried out in our government Ayurved hospital. It is having around 288 different plant species and almost more than 2000 plants varying from trees, herbs, shrubs and climbers and which is a well developed medicinal plants garden as per the CCIM norms. The medicinal plants garden is situated in college campus behind our college building and also in scattered form in the college campus with an area of about 4000 square meters.

It is a model medicinal plants garden which is useful for demonstration purpose of rare and endangered medicinal plants species collected from different floras and faunas for graduate and post graduate students of our institute. It is also useful for identification and demonstration purposes to local ayurvedic practitioners and graduate and post graduate students of local pharmacy, botany and many other colleges for demonstration purpose as well as a model garden or as a biodiversity park for academic visits as per their respective curriculum. Herbal garden visits are regularly being conducted in our existing herbal garden.

Medicinal plants garden is useful for the research purpose of Graduate and post graduate studies as a source of their study drug or for its identification and authentication purposes and also for their clinical, preclinical and research studies.

Our herbal garden also provides as a source of raw material for many formulations manufactured in our Government Ayurved and Unani pharmacy in small scale.

Another herbal garden of 100 acres area is also available as a part of our institute in addition to the above herbal garden situated at Barad, Taluka Mudkhed, District Nanded, 25 kilometers from our campus, it also provided as a source of raw material required for pharmacy and also for educational purposes.
